

21st FIMM International Scientific Conference

24th ÄMKA Conference

57th FIMM General Assembly

Manual Medicine in Children The State of the Art

Hannover, Germany

Conference:

October 28 – 30, 2022

General Assembly:

October 27, 2022

We are inviting you to join us for the FIMM International Scientific Conference in Hannover, Germany this year, the program is addressed to:

- **GPs who treat children as well as adults:** we will show you how to recognize and judge manual medical issues in pediatric patients so that you can refer them to qualified practitioners.
- **Practitioners of MM:** we want to introduce you to the exiting field of MM in children, acquaint you with- and enthuse you for - new possibilities in specialized clinical practice. The insights gained from diagnostics in children and the new manual techniques will also prove to be very helpful in the treatment of adults. Your approach to MM will become more gentle and sensitive.
- **Practitioners of MM in children:** internationally active instructors will present scientific findings and new techniques for MM in children. The scope of our knowledge will be extended and “the state of the art” will be established.

Friday will be dedicated to the development and treatment of infants and children. There will be introductory lectures on protocolized examination in the morning to be followed by hands-on workshops in the afternoon. We will get acquainted with the practical aspects of the topic. There will be an introduction to Atlas Therapy (Arlen) comprising the basic examination as well as impulse techniques on the Atlas Therapy Simulator.

The importance of the cranio-cervical region and its relevance in the treatment of children in MM will be a central topic. The rarely recognized important possibilities of MM concerning pediatric orthopedic issues will be presented.

On Saturday the correlation between MM and orthodontic treatment in children and adults will be a central topic. We will begin with oral pathologies and the treatment of individual teeth and then present orthodontic approaches.

There will be lectures and hands-on workshops regarding dental treatment, myofascial trains as well as the causation and treatment of CMD (craniomandibular disorders).

On Sunday there will be presentations on concepts for inpatient and outpatient treatment of neurologically impaired patients.

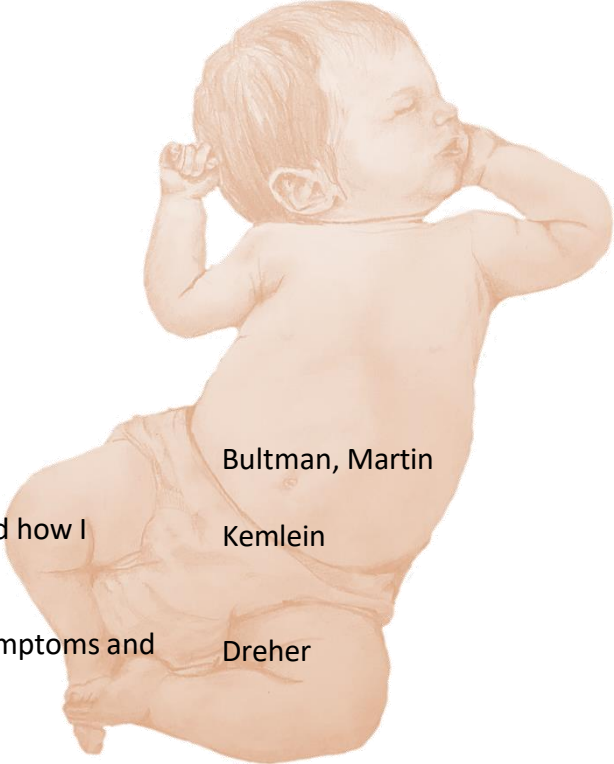

There will be lectures and hands-on workshops by international practitioners of MM regarding headaches in children the treatment of otitis media.

We hope that we can expand the “Horizon of Manual Medicine” with this program and enthuse you for the very rewarding field that MM offers for children.

Stephan Martin, President of ÄMKA

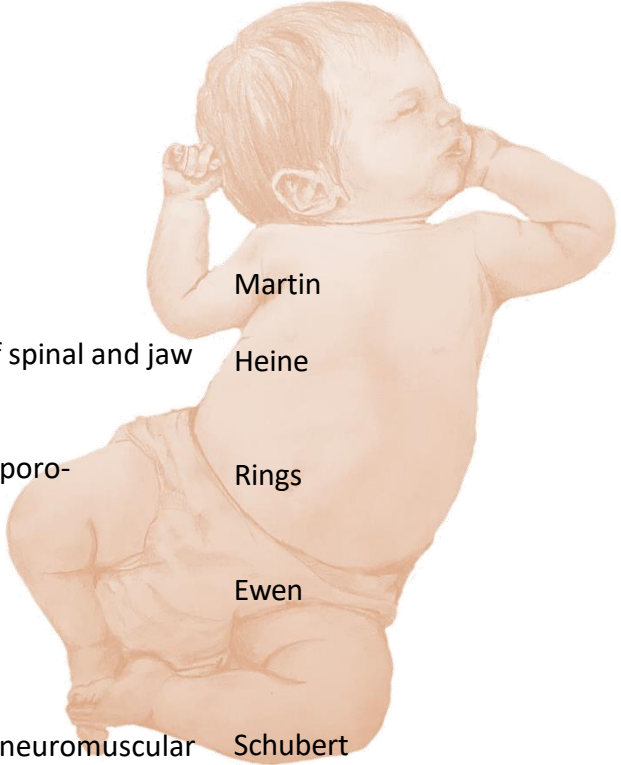

Henk Bultman, President of FIMM

Friday, Oct. 28 2022

08:30	Registration	
09:00	Opening statements	Bultman, Martin
09:15	My path to become a therapist for children and how I learned to handle crying babies	Kemlein
09:45	From birth to adolescence, manual-medical symptoms and findings in childhood	Dreher
10:30	Coffee break	
11:00	Milestones of development in infants	Thren
11:30	Milestones of development in toddlers and children	Kamping
12:00	Atlas Therapy (Arlen)	Weng
12:30	Lunch break	
13:45	Treatment of headaches in teenagers in a multimodal out-patient setting	Vinzelberg
14:30	Osteopathic Approach to Infant Feeding and Gastrointestinal Conditions	Patel
15:15	Workshops	
I	Examination and treatment of infants	Thren
II	Examination and treatment of toddlers and school children	Kamping
III	Atlas Therapy (Arlen)	Weng
19:00	Gala Dinner	

Saturday, Oct. 29 2022

09:00	Opening statements	Martin
09:15	Proposal for the simultaneous treatment of spinal and jaw dysfunctions	Heine
10:00	The embryological development of the temporomandibular joint (TMJ)	Rings
10:30	Only a tooth – dentoalveolar dysfunctions	Ewen
11:00	Coffee break	
11:30	Basics and application of Galileo training in neuromuscular diseases in pediatrics.	Schubert
12:15	An introduction to dry needling	Bar
12:45	Lunch break	
14:00	Workshops	
I	Therapeutic temporomandibular joint relaxation in the diagnosis of dysfunctions	Rings
II	An introduction to dry needling: A practical hands-on workshop on the use of dry needling in the treatment of myofascial pain of the forearm and wrist	Bar, Gorsky, Paz
III	Treatment of spasticity in the lower extremities in children with cerebral palsy with Botulinumtoxin-A	Martin
IV	Manual Medicine for Common Ear & Jaw Conditions	Kuchera
V	Only a tooth – dentoalveolar dysfunctions	Ewen
VI	Galileo training: practical application, therapy planning and selection of frequencies	Schubert
19:00	Get together dinner buffet	

Sunday, Oct. 30 2022

09:00	Opening statements	Martin
09:15	Effects of a single Manual Medicine treatment for infants with postural and movement asymmetries	Loudovici-Krug
09:45	Radiological anomalies of the cervical spine	Wuttke
10:30	Manual medical techniques in infants and toddlers	Kraemer, Roth
11:15	<i>Coffee break</i>	
12:15	Manual Medicine in pediatric orthopedic conditions	Schnell
13:00	Complementary manual medical therapy for children with cerebral palsy in an outpatient setting	Fünfgeld
13:45	Complex multimodal intensive inpatient treatment for children and young adults with motor disabilities and pain	Bonetto
14:30	Closing statements	Bultman, Martin

Location: Stephansstift
Kirchröder Strasse 44
D-30625 Hannover

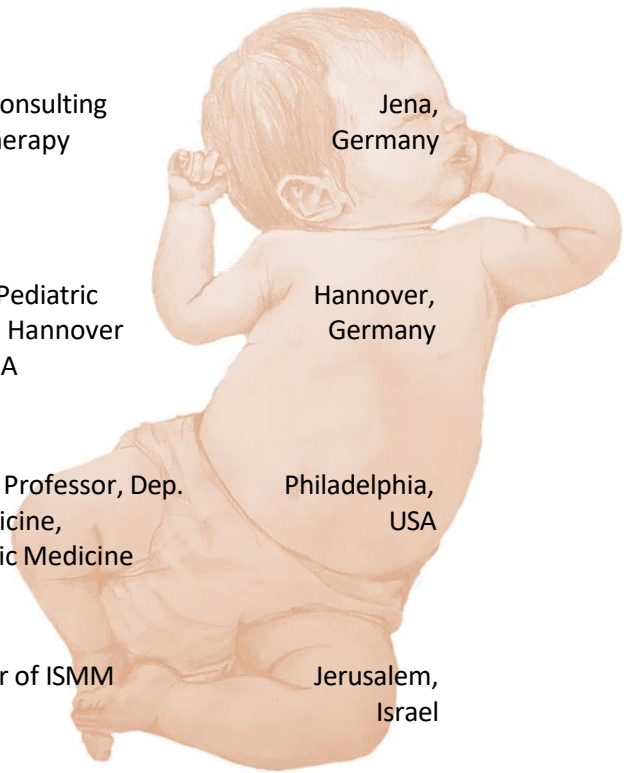

Registration: www.diakovere-akademie.de/fimm/

Speakers

Dr. Negev Bar	Family Practice, Instructor and board member of ISMM	Kibbutz Dalia, Israel
Dr. Anna Bonetto	Pediatrician, Specialist for Pain Therapy and Manual Medicine, Clinic for Manual Therapy	Hamm, Germany
Dr. Stephan Dreher	Pediatrician, Instructor für Manual Medicine in Children ÄMKA	Geldern, Germany
Dr. Bernhard Ewen	Family Practice, Specialist for Manual Medicine and Osteopathy, Instructor DGOM	Bad Kreuznach, Germany
Dr. Liv Fünfgeld	Family Practice, Instructor for Manual Medicine, acting chair of the ÄMM Academy in Berlin	Berlin, Germany
Dr. Yulia Gorsky	Family Practice, Specialist for Pain Therapy and Manual Medicine. President of ISMM	Haifa, Israel
Dr. Gernot Heine	Orthodontist, Specialist in Manual Medicine and Orthodontic Osteopathy	Wedemark, Germany
Ruth Kamping	DOMP, Orthopedic Surgeon, Specialist in Pediatric Orthopedics, Instructor for Manual Medicine in Children ÄMKA	Hannover, Germany
Dr. Walter Kemlein	Orthopedic Surgeon, Specialist in Pediatric Orthopedics and Manual Medicine	Kiel, Germany
Dr. Michel Kraemer	Physical-Rehabilitative Medicine, Specialist in Manual Medicine	Griesbach-au-Val, France
Dr. Michael Kuchera	DO, FAAO, Clinical Professor, Department of Osteopathic Manipulative Medicine; Marian University College of Osteopathic Medicine, Secretary-General of FIMM	Indianapolis, USA
